Considerable excitement has been caused in Lyons by a discovery which purports to give to flax all the qualities and appearance of silk. It has long been known that silk is soluble, not only in powerful acids, but also in soda and chloride of zine, and it is said that these qualities are made use of in the process. A company is being formed with a capital of \$6,000,000 for the manufacture of the new textile.

It is stated that of the 2,602 emigrants who left Switzerland last year quite 85 per cent, came to this country Most of these persons are skilled me-chanics, and the impulse that drove them from home probably was the depression of important Swiss industries beneath the competition from this country. One thing the protective policy tends to do is to draw dexterous workingmen from all parts of the

A few days ago Thomas Wright, of Bristol, Va., succeeded in cutting out with his own hand a very large leaden ball which he received in the battle of Chickamauga in 1864. He was shot in the back, and the ball lodged in the breast, where it has been a constant source of irritation, causing him frequently great pain. For some time past it has worked to the front of the breast where it could easily be felt. Mr Wright has suffered so much with it that he refused to submit to an operafinally cut it out with his pocket knife. The ball is a very large one and is very little battered. It was fourteen years and eight months in Mr. Wright's body.

"SIX YEARS."

Sermon Delivered at the Christian

Church, Decatur, by Eld. N. S.

Haynes, Sunday, Aug. 3, 1879.

[Published by request of the Church.] To-day brings us to the end of six years in the relation of pastor and people. It would seem proper that we should look over the history we have made in this time, like a prudent and a recessful business man making out and examining closely his balance sheet at the close of the year. That such a succuring up as ests will do more to stop burglaries that contemplated now is often made the occasion of ministerial glorification we all know; but it is my wish to keep as clear of this as possible; for glory is not immortality God will give eternal life." encouragement from spast successes as

failures.

OUR CONDITION THEN. Many of you can easily recall our condition six years since. We then met for worship on the same spot where we are gathered to-day, but the surroundings were very different. Our house was old, uninviting and often uncomfortable; but nothing disrespectful must be said of it, for about it gather yet many sacred memories that will be cherished forever .-There were on our church book the names of about one hundred and sixty persons who were or had been members of this church and who were still living in this community. In our Sunday school there were seven teachers and about sixty scholars. Such a thing as an official meeting, to look after the interests of the church in a common sense and businesslike manner, as far as possible, had never been suggested, not even in dreams. But in two things we have made little progress. The Wednesday evening prayer meetings, were then very well attended, relatively better than now, although for the last year or two these meetings have been as profitable and enjoyable as we might expect or wish. The contributions now, attributable doubtless to the difference in the times and the financial condition of our membership. WHAT HAVE WE DONE ?

It is a cause for gratitude to God and mutual congratulation that we have been able to replace the old house by the pleasant, inviting and comfortable one in society has certain feelings and tustes that the church should satisfy, is possible. Besides, as the possession of a hund some home cultivates within the owner permanent and good habits, so the possession of a good house for public worship impresses upon a community ideas of stability and usefulness, both essential to the growth of any congregation. During these six years 83 persons have confessed their faith in Christ and been baptized here: 86 have united by letter and 31 by relation, making a total addition of 200. Our losses have been as follows:-Dismissed by letter, 93; 14 have gone from earth to ifeaven-grand and true men and women, beroes in the faith of Christ, they triumphed gloriously in death, exchanging the sufferer's cross for the victor's crown-and 58 have removed without letters or apostatized, making a total loss of 165. During this time our church and Squday school has raised and paid not less than \$15,550. This is a most excellent result, considering the limschool has doubled its members and quadrupled its efficiency. The ladies of this church have organized and still maintain local missionary society as an aid to work in the foreign field, which is proving as helpful to them as it is commendable to our cause. If my memory is not at fault, there has been some improvements

in our congregational singing. In addition to these tabulated results it should not be forgotten that in all general benevolences we have borne our full share; such as the care of the sick, the relief of the poor, general Sunday School work and the temperance cause, in the last of which we have done as much good work as could in reason be expected. That we have moulded people's minds and shaped their lives, in some measure, for goodness and happiness, is a reflection that causes us to rejoice to-day. Inasmuch as you, my brethren, have been responsible for most of my time for six years, it is only just to say that I have received into the church at other places 50 persons. 30 of these by primary obedience to the Gospel. I have preached elsewhere 240 sermons, and have delivered 95 lectures and addresses: bave conducted 65 funerals, besides a considerable amount of newspaper, missionary, and other work that figures cannot ex-

This church has given to the world in the time under review, one able, faithful and successful minister. Also a young lady, who was baptized here four years ago the 14th of last April, is now doing noble service for the Master elsewhere. It seems strange that a value and giddy girl should be so changed as to delight m ministering to the stok, in cheering the poor in tenderly praying for all in private and public, in becoming a blessed angel of mercy to point all sorrowing and sinning souls to Christ and heaven. So many others, less prominent than these, who begun here their christian lite, have gone from our midst and are now battling for the Master here if they would. These op-

fully what we have done in these six swift flying years. OUR PRESENT CONDITION.

How many of you have contributed to the interest of the Wedneaday evening meetings in the past who are neglecting them through sheer carelessness? Have you forgotten the oughts, and musts, and wills that you have expressed on this floor? Are your consciences dying? How many fainting hearts may be cheered by your presence, your prayers, your words, and how greatly you would be blessed! Here is large room for activity. Will not some of you brethren make some inquiry after our mission work at home and abroad? "We are not able," you say. No, not much able, but a little, and the Maater says he "who is unfaithful in the greatest. Here is room. Whether there be any difference in the standing and influence of our church in this city now and then. I leave you to determine the fact and its size. It has been my aim to cultivate you in the highest and broadest christian life and the strongest christian character. To be a sectarian and parrot the party shibboleth, is easy; to be a christian and stand bravely always and everywhere for God and truth, is difficult. As widely do they differ the selfish partisan and the true patriot. I have taught and urged you to stick to this church, and have invited others to unite with it because its position is infallible. This sounds both presumptuous and conceited, but it is true. If any one wishes the proofs, they are at hand and will be forthcoming. A living faith in the Christ, and a loving loyalty to "Those who seek for glory, honor and His authority, will lead every soul to the climes of immortality. Whatever of religious growth in Christ has attended our struggles has come of straightforward, common sense Gospel work. We have had no sensationalism, no clap-trap.-Reverence is not stupidity, nor curiosity-monger-advertising pulpit power or church usefulness. I have not asked you

church usefulness. I have not asked you to think that the sun rises in the east and sets in the west end of our church. Such ignorant conceit would tear into a million tatters the beautiful garment of humility with which we must be clothed

The present membership of our congragation is about 200. This includes the regulars and—the irregalars. A few of these sheep are wandering from our fold, getting covered with sin-burs, and some are being torn to pieces by passion-wolves. But in the main our spiritual growth has been normal and vigorous. \$1,250 will cover our entre indebtedness—\$1,000 on our church building, and \$250 on current expenses. We could very readily, without embarrasament, maintain the regular order of the church, and pay offevery dollar of our indebtedness by the end of 1880, if we would all try. With an increasing interest in our prayer meetings and our Sunday School, with a growing sentiment in favor of missions and general benevolence, with an carnest, hopeful converted to the Savior? There are, percenevolence, with an earnest, hopeful haps, one hundred excellent persons who attend public worship with us, more or less, and who believe our teaching, who feeling inspiring - many, and the deterless, and who believe our teaching, who could, by an earnest, prayerful, persistent effort upon your part, be brought into Christ's fold within the next eight months. Will you try? In view of the solemnities of life and death and the judgment to come, speak to them anxiously of their souls. "Let him that heareth say, come." I beseech you all sell not your soul for trifles; barter not your birthright for a mess of pottage; do not allow the little trials of earth to turn you out of the way to heaven. mination to labor and suffer, if need be, for missions were far larger then than for Christ's cause, I can but regard our present condition as every way cheering and promising. We have great reasons and many to thank God and take courage. If any fall out of the way, or if any determine to play the part of Judas by betraying the dear Savior who died for them, for a paltry, miserable pittance, why we can't help it, but we will never cease to which we are now assembled. The body of this church has set out for heaven, and by God's grace, we are going there, though we be compelled to fight the world, the flesh, and the devil at every step.

It is better for the disciple than all preaching or discipline. Draw a line in the church between the working and nonworking members and upon one side you will find the we's, the active, the regulars, the earnest, the praying, the bopeful, the useful; and on the other the they's, the inactive, the irregulars, the indifferent, the prayerless, the dispairing, the useless. I entreat every member of this church do not be satisfied to come and hear and go from this place in musterly inactivity. For Christ's sake and for your own soul's sake do something for the prosperity of Zion. Let me briefly indicate to you how every disciple may find employment. If those who should be examples to the flock that is the officers of this church and the preachers who belong to it, will do their duty (which I need not point out to them) some of us will perhaps be more active than heretofore. We need two more the church as in the family of in society some of us will perhaps be more active than heretofore. We need two more prayer meetings, one for our young men and one for our young women. There are from 12 to 20 young men who ought to be thus associated for mutual improvement in their spiritual lives. What a blessed thing it would be to have them gather once a fortnight at some private house and their meeting conducted by one of our Deacons. These officers could do this work if they would. Louisville, Aug. 4.—Specials received by the Courier-Journal indicate a large falling off in the Democratic vote cast at to day's election for State officers and members of the legislature. The Democratic Central Committee estimate the total vote not over 200,000. a falling off of over 50,000 on the Tilden-Hayes vote, and over 15,000 on the last Gubernatorial vote.

In this city alone the vote falls off over 8,000. The Republicans make slight gains in the legislature and defeat the speaker of the last house, but the Democratic majority is still overwhelming in the general assembly. The call for a constitutional conven-

tion fails for want of a constitutional majority in its favor. In this, city, where the workingmen elected five of the representatives two years ago, only Democrats were elected to-day.

CHICAGO, Aug. 4.—Frank Victory, aged 73, died here Saturday night at HAVANA, Aug. 4 .- The deaths from the residence of his son in-law, Geo. W. Cunningham, 224 Jefferson street, after an illness of about a week. The certifieate of Dr. N. L. Northway, his attending physician, states that death was caused by bilious and intermittent fever, with suspicion of yellow fever because of his recent arrival from Memphis. Dr. medical experts concurred in this opin ion. The premises have been thoroughly Judging from the universal satisfaction disinfected.

BLOOMINGTON, Ill., Aug. 4.—This vening, a little after 9 o'clock, while Aaron Goodfellow, a well-known citizen of Bloomington, was returning to his residence on East Chestnut street, he was attacked by two unknown ruffians, when about three blocks from his home, who drew revolvers, at the same time crying to hold up his hands. Two shots were fired, one taking effect in the jaw, and the other entering the right side, the ball passing through the body. The assassins then made good their escape, and up to 11 o'clock to-night officers have been unable to discover the guilty 1,000 Feed Baskets, for less than half parties. Goodfellow's wounds are of such a character that attending p ians pronounce them necessarily fatal. During the earlier part of the evening Goodfellow was engaged in playing croquet at one of the neighbors', and some time before 9 o'clock started for his home. The tragedy is wrapped in the greatest mystery, and the general impression seems to be that robbery was the object, although his money and watch were found upon Goodfellow's person when he was taken home. For some time past, and until recently, Goodfellow was a Deputy Sheriff of the county, and is known to be an upright citizen and a man without any enemies who would attempt to waylay him.

Boston, Aug. 4.-The export trade of this port attained remarkable proportions during the past week, the total value being \$1,217,879, or nearly double Summen shawls, dress goods, parasols that of the corresponding week of last and sun umbrellas, for less than cost of year. The whole or a portion of the cargoes of ten ocean steamers to England are included, besides important and valuable cargoes to Prussia, Africa, New Zealand and Valparaiso. This docs not look like depression in business, nor does the fact, that the week's domestic shipments of boots and shoes are 54. 194 cases, or 12,000 cases in excess of the corresponding week last year. Chicago took 5,459 cases.

FALL RIVER, MASS., Aug. 4.—It is eported that the spinners voted not to furnish bail for strikers arrested for intimidation, and also that they voted to petition the second hands in the mills to leave work, and that forty-four se-

cond hands in the city have expressed willingness to quit work. It is further stated that a mass meeting will be held in the park next week to express indignation at Mayor Lindsay's action in interviewing Gov. Talbot.

Alderman Operative offered a resolution kitchen window. The shutters were closed, but the burglar cut the lower slat, put his hand through and lifted the casting swung back the shutters, opened the screen, which fastens in the centre, pushed up the window hung on cords, and then crawled in. The next move was to open wide the south deer of the kitchen, that escape might be easy if any of the sleeping inmates should happen to be disturbed. Then the burglar, whoever he was, entered the sitting room to the right of which was the bedroom of the family, then occupied by Mr. and Mrs. Imboden and their children. Near the foot of the bed stands a handsome bureau, and in one of the drawers was all of Mrs. Imboden's jewelry. This drawer was taken out and quietly carried away while the occupants slept on wholly unconscious of the presence of the daring robber. The Lurglar then tiptoed it up stairs and went through Miss Mary Plotner's trunk and bureau drawers, taking a large amount of jewelry, a portion of decamped, taking the bureau drawer and his booty with him. The family slept on and awoke this morning, Mrs. Imboden remarking that her sleep had been unusually sound. Her little children were still asleep, something that specially attracted the attention of the mother, as they had always been the first of the household to awaken. It was then discovered that a robbery had been committed, and Marshal Brockway was immediately notified He came, and with a REPUBLICAN reporter, made an examination of the premises, securing a description of the stolen property, the most important of which is giv-
